

EasyTicket

Problem

Solution

Requirements

- Android Smartphone with NFC chip
- EasyTicket App
- Google Account for payment

Components

- NFC technology
- REST web service
- **User App** (account, payment, history, synchronization)
- **Provider App** (validation)

Positive Aspects

- Easy to use
- Centralized ticket management
- Monitoring state of ticket
- Instant validation
- Portability
- Reducing ticket print, cost and queues
